**Subject: Reference Letter for Mr. Kristian Garcia**

Dear Sir or Madam,

We, the Floorball Verband Berlin-Brandenburg e.V., would like to issue this reference letter for Mr. Kristian Garcia (born April 21, 2006) in recognition of his outstanding work with our association from March 18, 2024, to June 14, 2024.

The Floorball Verband Berlin-Brandenburg e.V. is dedicated to promoting and developing the sport of floorball in the Berlin region. Our association organizes leagues, tournaments, and training programs for all age groups and skill levels. A crucial part of our work is the digitalization of the sport, represented by the development and maintenance of an app that facilitates access to relevant information and services for our members and officials.

During his tenure, Mr. Garcia significantly contributed to the advancement of this app. His work focused on three key areas:

- Interface with a Season Manager:** Mr. Garcia developed an interface that enables the display and favoriting of leagues. This feature greatly enhances user experience and ensures that our members are always informed about current season information.
- Referee Pass Functionality:** He implemented a function that operates in conjunction with a Microsoft 365 (M365) interface via REST API with a SharePoint list. This allows for efficient management and verification of referee passes, significantly reducing organizational effort and aiming to replace physical cards.
- Referee Compensation:** Another major enhancement to the app was the development of an automatic calculation of referee fees and the encrypted storage of signatures in our database,

which is based on an M365 SharePoint list. This feature ensures that referee compensation is accurate and secure, enabling cost balancing for the clubs.

Throughout his tenure, Mr. Garcia consistently demonstrated reliability, a deep understanding of the tasks at hand, and high quality in his results. He consistently delivered on time and implemented his functionalities with outstanding quality. Despite language barriers, he communicated seamlessly in English with our German developers and showed great diligence in data security and foresight in app realization. Mr. Garcia was always responsive to customer requests and adapted the app to meet the organization's needs. He exhibited a high willingness to learn and independently acquired the necessary knowledge to a high degree. He was familiar with the use of modern tools and interfaces with our web interface, which greatly supported him in our project. Personally, Mr. Garcia was always a friendly and courteous young man.

We highly value his work and are confident that he will make a valuable contribution to any future project with his skills and dedication. We wish Mr. Garcia all the best for his professional future and are confident that he will continue to be successful.

Best regards,
